This Fact Sheet is a general guide to inform the Owner/Management Agents (OA) and HUD-assisted residents of the responsibilities and rights regarding income disclosure and verification.

Why Determining Income and Rent Correctly is Important

Department of Housing and Urban Development studies show that many resident families pay incorrect rent. The main causes of this problem are:

- Under-reporting of income by resident families, and
- OAs not granting exclusions and deductions to which resident families are entitled.

OAs and residents all have a responsibility in ensuring that the correct rent is paid.

Residents’ Responsibilities:

- Provide accurate family composition information
- Keep copies of papers, forms, and receipts which document income and expenses
- Report changes in family composition and income occurring between annual recertifications
- Sign consent forms for income verification
- Follow lease requirements and house rules

Income Determinations

A family’s anticipated gross income determines not only eligibility for assistance, but also determines the rent a family will pay and the subsidy required. The anticipated income, subject to exclusions and deductions the family will receive during the next twelve (12) months, is used to determine the family’s rent.

What is Annual Income?

Gross Income – Income Exclusions = Annual Income

What is Adjusted Income?

Annual Income – Deductions = Adjusted Income

Determining Tenant Rent

Project-Based Section 8 Rent Formula:
The rent a family will pay is the highest of the following amounts:

- 30% of the family’s monthly adjusted income
• 10% of the family’s monthly income
• Welfare rent or welfare payment from agency to assist family in paying housing costs.
  OR
• $25.00 Minimum Rent

Income and Assets

HUD assisted residents are required to report all income from all sources to the Owner or Agent (OA). Exclusions to income and deductions are part of the tenant rent process.

When determining the amount of income from assets to be included in annual income, the actual income derived from the assets is included except when the cash value of all of the assets is in excess of $5,000, then the amount included in annual income is the higher of 2% of the total assets or the actual income derived from the assets.

Annual Income Includes:
• Full amount (before payroll deductions) of wages and salaries, overtime pay, commissions, fees, tips and bonuses and other compensation for personal services
• Net income from the operation of a business or profession
• Interest, dividends and other net income of any kind from real or personal property (See Assets Include/Assets Do Not Include below)
